DALY CITY MAN
MEETS DEATH IN
AUTO ACCIDENT

The sudden and tragic death of Marco Rancatore, of Evergreen avenue, proprietor of the Daly City Feed and Fuel Company, has caused grief among his multitude of friends, as he is loved by everyone with whom he came in contact.

Mr. Rancatore's death was the result of an accident while riding over a Santa Cruz mountain with a party of friends. Another machine stalled on the road, and as Mr. Rancatore's machine reached that point a little child ran in front of his machine. In order to avoid hitting the child, he turned his machine too far to the edge of the road and it went over the embankment, rolling over several times before coming to the bottom of the gulch. One of the occupants of the machine, a friend of the family, was killed instantly, and Mr. Rancatore's back and neck were broken. Two more friends were badly shaken up.

He will be buried from the new mortuary chapel of W. C. Lasswell & Co. this (Friday) morning, thence to St. Maximus church, where a requiem high mass will be celebrated for the repose of his soul, commencing at 10 o'clock. Entombment will be in Holy Cross cemetery.

Mr. Rancatore leaves to mourn his loss, besides numerous friends and acquaintances in this section, his devoted wife, Minnie Rancatore, and children, Florence, Evelyn, Frank and Thomas Rancatore, and sisters, Mrs. B. Barone, Mrs. Cangelasi and Mrs. Benatole.

Mr. Rancatore will be sadly missed by residents of Daly City and Colma, who will remember him as an enterprising and energetic business man, and a good neighbor.

INDEPENDENCE DAY
COMMITTEE TO MEET
NEXT WEDNESDAY

The general committee on the proposed Daly City celebration of the Fourth of July, 1927, will meet next Wednesday, August 25, in the City Hall.

A number of organizations have elected delegates in answer to communications sent out by Secretary Mrs. S. A. Landini.

All interested persons are invited to attend this meeting next Wednesday night, and to offer suggestions for the advancement of the plans for a celebration in this city on July 4, 1927, which will eclipse all previous efforts in this direction.

All organizations that have not as yet selected their delegates are urged to do so at once, that they may have a part in making this celebration one long to be remembered.

ASSOCIATED FIREMEN
MEET AT HALF MOON

The Associated Firemen of San Mateo County held their regular meeting last Sunday afternoon at Half Moon Bay. There was an unusually large attendance.

Captain Clancy, of the San Francisco department, spoke on "Fire Prevention."

The Half Moon Bay department was presented with a silver cup as the prize for the best tug-of-war team in the contests held July 4 at Half Moon Bay. If they win the cup three successive years, it becomes their property.

The association adopted three fire prevention resolutions, which will be distributed next month.

It was decided to hold the annual picnic September 12, at Woodside. There will be a baseball game between the Burlingame and Woodside departments. A barbecue, games and dancing and other features scheduled. Admission will be 50 cents; children under 12 free.

The committee on organization of a baseball league among the fire departments of the county reported fine progress.

After the meeting the Half Moon Bay department served some real Half Moon Bay mussels.

A number of Daly City firemen and their wives made the trip to Half Moon Bay. Several members took along samples of Daly City water, and again convinced the pessimists of its real purity.

A large delegation of San Mateo county firemen left Monday for Pasadena, to attend the California State Firemen's convention.

Traffic Violators Pay Next Sum
Traffic violators during the period from July, 1925, to June 30, 1926, paid a total in fines of \$5,870 to the city of Burlingame, according to the figures released by Police Judge J. V. Gaffey. The number of trials for traffic violations during that period amounted to 527.

LOCAL MASONS TO
ENJOY AN OUTING

The members of Crocker Lodge No. 454, F. & A. M., have set aside next Sunday, August 22, as the day on which they will enjoy their annual outing and picnic.

The members their wives and children and their invited friends, will journey to Sawyer's Camp No. 2, on the Spring Valley Water Company's property, where they will spend the day, as they have on such occasions in the past, in enjoying a program of contests, getting better acquainted with one another, and enjoying the delicious edibles that will no doubt be provided by the ladies.

The trip will be made in automobiles, and the machines are expected to be at the top of the hill by 9 o'clock. The machines bound for the picnic grounds will line up at this point, and it is hoped that every member will be present at 9 o'clock, ready to start for the picnic grounds.

Worthy Master Kenneth McLean and his capable, hustling assistants have made arrangements for the entertainment of the members and their families and a large crowd is expected.

EAGLES' TO PICNIC
AT LOVCHEN GARDEN

Colma-Vista Grande Aerie No. 1848, Fraternal Order of Eagles will hold a picnic next Sunday at Lovchen Gardens, preparations having been made for a most enjoyable time for all who can attend. Local Eagles are noted for their hospitality, and it is probable that one of the largest crowds of the season will gather at Lovchen Gardens.

During the past week the drum corps presented its recently married drum major, George Connelly, with a beautiful floor lamp. Mr. and Mrs. Connelly have taken up their residence in the West Portal Tract.

NEW MEMBERS INITIATED
BY ORDER OF EASTERN STAR

Last Monday evening at the meeting of Crocker Chapter No. 382, Order of the Eastern Star, initiatory ceremonies were held, it being Past Matrons' and Past Patrons' night. A large number of members were in attendance, while there was an unusually large number of visitors present. After the initiatory ceremonies a splendid luncheon was served in the banquet hall.

The local Order of Eastern Star, of which Mrs. Gertrude Parker is Worthy Matron, is steadily increasing in membership, and is recognized as one of the real live Chapters of this state.

GRACE PRESBYTERIAN CHURCH

Subject for next Sabbath evening, "What Do Ye More Than Others?" or why is the Christian better than the non-Christian.

What right have we to ask a man to be a Christian if there is no difference? Come, let us find out if there is any advantage; if not, then let us quit and turn the job over to some one who has something better.

Dr. Donaldson gave us a very excellent sermon last Sabbath evening, and had a splendid hearing, and the music was par excellence and all were more than pleased, and the ones who played were complimented from many sources. We can but say, do it again.

The pastor, Mr. Gatchell, conducted services at Palo Alto last Sabbath morning for the pastor there, who is away at summer conference.

The attendance last Sunday at the Sunday school was considerably above that of the preceding Sunday, and we are hoping that it may keep increasing.

We are planning for the month of September to have a real rally time, and the young people of the church are arranging now for a Young Peoples' Society, and the committee is now working out a plan.

You will find a welcome here and we invite you to help us with this work of teaching the Bible to the coming generations.

Chas. H. Gatchell, Minister; Phone Delaware 1544.

SHERIFF MCGOVERN TO LEAVE
HOSPITAL IN NEAR FUTURE

Sheriff T. C. McGovern, who was seriously injured in an automobile accident at San Bruno three weeks ago, is rapidly recovering at the Mills Memorial hospital in San Mateo, and it is expected that he will be able to return to his home in Redwood City, probably by the first of next week.

Sheriff McGovern, since his accident, has received hundreds of letters from friends throughout the county and state, extending their sympathy. His campaign for re-election is being conducted by his friends during the time he is incapacitated.

MANY CITIZENS TO
WORK AT BAZAAR

The members of St. Maximus church are making extensive preparations for the bazaar which will be held in the Daly City Auditorium on the evenings of August 26, 27 and 28.

This bazaar is being held for the purpose of securing funds for the completion of the payments on the new parish house, recently completed. To say that the plans for this bazaar are being carried out with the highest degree of efficiency, is putting it very mildly. The ladies and men of the parish, the founders of this Catholic center of St. Maximus parish, deserve the highest praise and commendation for their efforts in this direction. All the prominent men and women of the parish are grouped under four headings for the bazaar. Those working under the protection of St. Maximus are the following:

Mr. and Mrs. Johnson, Mr. and Mrs. F. Michaelson, Mr. and Mrs. William Regan, Mrs. Bleasdale, Mr. and Mrs. Raymond Dhuyvetter, Mrs. M. Vernego, Mr. and Mrs. M. Rancatore, Mr. and Mrs. Anthony Parmissano, Misses Raffo, Mrs. W. Kelley, Mr. and Mrs. E. Knoll, Mr. and Mrs. Albert Parmissano, Mr. and Mrs. John Hume, Mrs. F. Martini, Mrs. Mary Scerbo, Louise Tozi, Mr. and Mrs. Myrtle Ferro, Mr. and Mrs. Barilo, Mrs. A. Brulez, Mrs. Rancatore, Mr. and Mrs. Core, Mrs. James Burns, Mr. Bergen, Mrs. Phelan, Mrs. and Mrs. B. Melano, Miss Valentino, Mrs. B. and Mrs. Glavich, Mary Bizzo, Mrs. Quinlan, and Penella.

Those guiding the Patriotic booth are: McDonald, Mr. and Mrs. M. Murphy, Mr. Ben C. Jones, vester Griffin, Mrs. W. It is shown and Mrs. M. Dwyer, and can be in J. Murray, Mrs. Fred J. concealed under Dudley, Mrs. Charles Mae Baker, Mrs. Cat

Mr. and Mrs. J. Collins, kamper, Mr. and Mrs. Mrs. W. Kohmann, Mr. Gerald, Mr. M. O'Reilly Corish.

Golden West booth which the ducted by Mr. and Mrs. M. have registered Mr. and Mrs. L. Shaw, and Stephen Perry, Mrs. A. Court Justice A. P. Chesney, Mrs. C. at the legisla-

A. J. Linden, Mr. and Mrs. for the toy anaro, Mrs. Olive Mcminiature car Annie McKay, Mr. and Mrs. I. the back is Straight, John Johnston, Mrs. W. gas-driven Mrs. David Johnston, Mrs. I. little car is and Mrs. Otto Heck, Mr. Chas. Anderson, Mr. and M. Melesky, Mr. and Mrs. T. M. Rose Smith, Mrs. L. Jackson, Mrs. Raymond Wille, Mr. Joselyn, Mrs. Phelan, Miss Mrs. Ethel Teabay, Mrs. George son, Mrs. Markovich.

The Old Mission booth, after which the church is modeled, will be presided over by the following: Mr. and Mrs. J. J. Steele, Mr. and Mrs. Ford, Mrs. A. P. Johnson, Anne Lucey, Mr. and Mrs. Roy Kelly, Mrs. Ella McGinnel, Mr. and Mrs. George Godfrey, Mr. and Mrs. A. J. Bodien, Mr. and Mrs. Ellis C. Johnson, Mr. and Mrs. J. Doyle, the Misses O'Connor, Mrs. Helena O'Connor, Mr. and Mrs. Wall, Mr. and Mrs. Hawkins, Mrs. Hailer, Mr. and Mrs. Rode, Mr. and Mrs. McKeown, Mrs. R. F. Stockton, Mrs. Horace Fellows, Mr. and Mrs. Trier, Mr. and Mrs. Deming, Mrs. E. J. Doyle, Mrs. J. Moynahan, Mr. and Mrs. John Dempsey, Mr. and Mrs. Ed. Ford, Mr. and Mrs. Schriber, Mrs. Morris, Mrs. J. Burke, Mrs. Sturdevant, Mrs. Matthews, Mrs. L. Stang.

The committee in charge of each booth is striving to make the best showing, and there is considerable friendly rivalry. Watch the columns of the Record for the final results.

NEW ELECTROLIERS LIGHT
STREETS OF BURLINGAME

Burlingame avenue, Burlingame, was a blaze of glory Saturday night when the new 1,500 candlepower lights were turned on for the first time. The improvement was a revelation even to the most ardent advocates of the new high power lights.

After months of agitation for the new lights, the plans for the present type of street lights were formulated in January by the Burlingame board of trustees, working with the Burlingame Chamber of Commerce. Plans now call for new electroliers along California Drive and on most of the side streets throughout the business district.

San Carlos Has Dollar Tax Rate
A tax rate of \$1 per \$100 of assessed valuation was set for the city of San Carlos when the board of trustees met last week as a board of equalization. The assessment roll for the new fiscal year was adopted without protest.

COLMA MAN MEETS
DEATH IN CRASH

Antonio Mandot, well known dairyman of Colma, was killed and a companion, Alfred Gee, of Millbrae, received serious injuries early Tuesday morning when their automobile was struck by another machine said to have been driven by Mrs. Dora Allwood, 1351 Stockton street, San Francisco.

Mandot was thrown from the automobile as it overturned following the collision, which occurred on the state highway near Colma. He was dead before assistance could be summoned. Gee received internal injuries and is in a serious condition.

The San Francisco woman is said to have driven from the scene after she had given her name to motorists who stopped to investigate. Three others in the machine driven by Mrs. Allwood were slightly injured. They were Theodore Powell, Charles Walton and a girl whose name was not learned.

Powell remained at the scene of the accident, while the others continued on their way to San Francisco, according to reports of officers who investigated.

The crash occurred at 2 o'clock Tuesday morning as the San Francisco woman was driving a drive

of Motor Land, the leading edition of the "Los Angeles" is in almost direct

struction on the recommendations of the "Committee of Nine" in regard

to the benefits that will be derived from the highway

to California by placing highway construction on a sound and business

basis, the magazine declares "to accomplish these objects, it is essential that the continued

development and prosperity of the state, California electors must not

cast their ballots in favor of the present increase in the present gaso-

line tax, but must vote 'no' on the second highway financing measure

appearing on the ballot, commonly referred to as the 'Los Angeles

measure."

In considering the merits of the two highway financing measures, the

Automobile Association declares that it is significant that the highway

advisory committee, more commonly known as the "Committee of Nine,"

recommended that a construction fund of ten million dollars be provided

for the first year and that it be increased thereafter at the same rate as motor

vehicle registrations. The "Committee of Nine" recommended that this

fund be derived from the users of the highways and that it be equitable.

The committee studied the highway problem for over a year, and its personnel included California's present

state highway engineer.

SEMI-MONTHLY PAY
DAY LAW UPHeld

Walter G. Mathews, State Labor Commissioner, was the victor last Monday in the first test of the penalty provision added to the state semi-monthly pay day law at the last session of the legislature. The constitutionality of the law was attacked by the Cowell Portland Cement Company upon a demurrer of the company, which asks that \$4,380 be forfeited by the company to the state on account of the company's failure to pay its employees every two weeks, as the law requires. Arguments on the demurrer were heard before Judge A. B. McKenzie of the Superior Court at Martinez, and the constitutionality of the law was sustained, the court ruling that the 1925 amendment adding civil penalties of \$10 for each employee who was not paid semi-monthly substantially followed the New York law, which was declared constitutional by the United States Supreme Court in 1914.

The company was allowed ten days' time in which to file an answer to the complaint.

New School For Atherton

The new grammar school at Atherton will be completed by the second week in September. More than 100 pupils destined to attend classes there will go to the Central school in Redwood City until the school house is finished.

Finds \$1,000 in Gold

Discovery of \$1,000 in gold coin buried on the site of an old blacksmith shop at La Honda has set the residents of the town on a treasure hunt. The money was reported to have been found in a can by Jack Gabrielle and Ed Hillebrand.

LOST RING MAKES
AN OCEAN VOYAGE

Captain F. W. Winter, of 659 San Diego avenue, is congratulating himself upon the return of a valuable ring which he lost some time ago, and which he never expected to see again. Also he is more firmly convinced than ever that the trait of honesty predominates in the character of the average man.

While inspecting a shipment of radio accessories being made by the American Radio Corporation to the Amalgamated Wireless Company at Wellington, New Zealand, the ring was lost. Missing the ring, Captain Winter had a number of the boxes opened and searched, without avail, and finally decided that the prized ring would never be recovered.

Imagine his surprise, however, when some time later he received the ring and a letter from Mr. G. Roberson, manager of the Amalgamated Wireless Corporation at Wellington, New Zealand.

Mr. Roberson's letter contained the information that the ring had been found in one of the boxes by one of the employees of the company, who had promptly turned it over to Mr. Roberson, who traced the ownership to Captain Winter and forwarded the ring to Daly City.

Mr. Winter has forwarded a suitable reward to the employee who found the ring. He also made many voyages to the time, to his

TENDERED SURPRISE
PARTY ON BIRTHDAY

Miss Margorie O'Connor was tendered a pleasant surprise party last Saturday evening, the occasion being her twenty-first birthday. Games, dancing and singing was indulged in until midnight, when all marched to the dining room, where a delicious supper was served. The Misses Grace Johnston and Tessie O'Connor had artistically decorated the dining room in pink and white and smilax. The table favors were also in pink and white. The following were present: The Misses Dolly Cummings, Carmel Weisner, Viola Diestel, Kathleen O'Connor, Gertrude Cummings, Marge Varni, Toots Bailey, Grace Johnston, Tessie O'Connor, Catherine Sinclair, Lorraine Wall, Margie O'Connor, Frances Fricke, and the hostess, Mrs. H. O'Connor; Messrs. Richard Hughes, Lloyd Fields, Bob Evans, Harold Quinn, Henry Stecker, Jimmy Woods, Bob Green, Archie Hamilton, Henry Baylaque, Lieut. MacDougall, Joe Ross, Al Kennedy, Jack Desmond and Bob Wall.

SAN MATEO COUNTY'S SHARE

The schools of San Mateo county received a total of \$333,903.04 in the state apportionment for the school year of 1926-1927, according to the figures released by County Superintendent of Schools Pansy Jewett Abbott. San Mateo county funds were divided as follows: \$227,041.13 for the elementary schools; \$75,461.91 for the secondary schools; \$31,400.00 for the Junior College. Division of the state funds is based on the average daily attendance of the schools.

PROTECTION FOR
COUNTY HOSPITAL

To adequately protect the new tuberculosis ward of the Community hospital at Beresford against the fire hazard, 250 feet of two and one-half inch hose will be necessary, according to the report of Supervisors Manuel Francis, Thomas Hickey and Rosalie Brown, presented at the meeting of the board of supervisors last Monday. County Purchasing Agent Werder was instructed to purchase the necessary hose and have it installed immediately.

The three supervisors were appointed as a committee to investigate the fire fighting equipment of the tuberculosis ward after it had been called to the attention of the board by Superintendent Bertha E. Budworth that the new addition was without fire protection. She said that there were two hydrants placed in the building, but no hose had been provided for either.

The county was asked to bear two-thirds of the expense of paying an extension of Phelps street, Redwood City, as an approach to the Dumbarton vehicular bridge. At a previous meeting the supervisors agreed to bear one-third of the expense if Redwood City would bear one-third and the property owners on the street the other third. A representative of the Chamber of Commerce told the supervisors that the city could not pay their third of the expense, as it did not have sufficient money in the fund.

A motion to have the county assume Redwood City's share of the expense was lost when Supervisors Thomas L. Hickey and Rosalie Brown voted no. A four-fifth vote was necessary for its passage.

A 242-foot clearance will be provided when the draw-span of the Coyote vehicular bridge is constructed, it was announced in a report from the state engineer's office filed with County Clerk Elizabeth M. Kne se.

Supervisor Hickey was granted the authority to publish a resolution of intention concerning the purchase of a lot 100x100 at Colma for the establishment of a corporation yard.

Relative to the construction of the De La Pulgas road to connect Belmont with Woodside, County Surveyor Geo. Kneese announced that a resolution of intention to pave the road would be published within thirty days.

LAST SYMPHONY CONCERT
SCHEDULED FOR SUNDAY

The final appearance of Nikolai Sokoloff with the San Francisco Symphony orchestra will be made in Hillsborough next Sunday afternoon. This coming concert ends the Philharmonic Society's summer series for this year. These out of doors Sunday Symphony concerts have proven to be a most successful experiment, and it is hoped that from so auspicious a beginning a permanent summer symphony organization may be the ultimate outcome.

Last Sunday, Sokoloff registered a brilliant success, both personal and artistic. His conducting is attractive and masterly, and his magnetic, fascinating individuality is singularly intriguing to his listeners.

An excellent program has been prepared for next Sunday, and a record attendance is expected.

5752 MISSION STREET, AT OLIVER

First 24 Hours of Life Baby's Hardest Time

By MARIE K. JOHNSON

Undernourishment is one of the most common of the causes of infant mortality, according to a survey recently undertaken in Chicago. Statistics show that of 4,522 babies under one year of age that died in 12 months, 988 died in the first 24 hours.

Eight hundred and seventy-six died in the first six days, exclusive of the first 24 hours, and 1,798 died from the seventh day to the sixth month. Eight hundred and sixty died in the last six months of the year. The survey indicated that a surprisingly large number of infants are artificially fed, which condition, doctors agree, had a marked bearing on their undernourished conditions. Naturally, no one food may prove satisfactory in every case, although the survey showed that evaporated milk in many cases had proved an excellent substitute for mother's milk. This may be explained by reason of the fact that evaporated milk is simply pure, concentrated cow's milk from which 60 per cent of the water has been removed. It contains practically every element necessary for good health and is consequently an excellent builder of bone and tissue.

Although authorities on health recommend evaporated milk as a baby food, like other substitutes for the natural milk of the mother.

The bandits who caused such an uproar in Daly City and San Francisco recently, and who were captured and a quantity of loot recovered, have been sentenced to San Quentin for a term of from one to five years. After this sentence has been served, they will be deported to Mexico, it is said.

That cyclonic comedy classic, "A Beggar on Horseback," is scheduled for the New State Theatre for next Wednesday, August 18. In addition to this excellent picture there will be that riot of mirth, Eddie's Advershow. This special feature is proving more popular with the passing of each week.

Raymond Griffith in "Hands up," Vaudeville and "Strings of Steel" are the scheduled features for the New State Theatre for next Sunday night, August 15. This will make an excellent bill for Sunday evening, and you will find the New State a pleasant place to pass the time.

Lilah Brown, who is spending her vacation in the north, in a letter to a friend tells of the beauty of Crater Lake and Klamath Falls and other spots of interest she has visited. She expects to visit Lake Tahoe on her way home. She reports she is having a wonderful time and learning a great deal about the natural beauties of our state.

Bill Roberts, of Winchester street, who has just completed the course at San Mateo Junior College, is planning to enter the University of California this fall. He graduated from Commerce high, where he had a very good record, in his work at Junior College.

"Doubtless one of the big reasons for this condition is that modern young men don't expect the girls they marry to know much about cooking," said Miss Maxwell.

"In the future, before man pops the question, he's going to find out whether the girl knows what calories are and whether she's wise to the elements of a balanced diet."

"A few questions before the minister asks, 'Do you take this woman?' would save a thousand recriminations later."

There are certain dishes to which Miss Maxwell is partial. As she explains them, they are readily prepared. Miss Maxwell uses for Maryland Chicken.

Two 2 1/2 lb. chickens 1 cup water
2 eggs 2 tbsps. butter
(broilers) Fine bread crumbs
Salt Fat
Pepper 1-3 cup butter
1 cup evaporated 1 tsp. salt
milk diluted Dash pepper
with 2 tbsps. flour

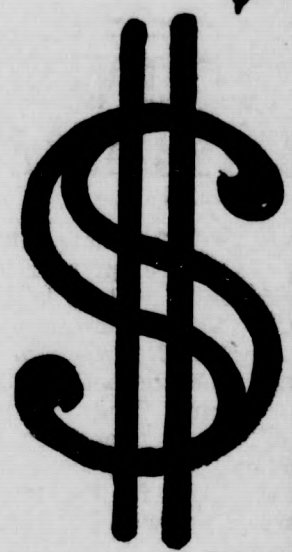

Dress, clean and cut up chickens. Sprinkle with salt and pepper, dip in crumbs, egg, and crumbs. Place in a well-oiled dripping pan, and bake twenty minutes in a 450-degree F. oven, then reduce the temperature to 350 degrees F. and cook until tender, about twenty minutes longer. Baste every ten minutes during cooking with 1/2 cup melted butter. Remove to platter and pour around a cream sauce made of fat in dripping pan, the flour, diluted milk, salt and pepper.

Asparagus en Frit.
1 bunch fresh 1/4 cup water
asparagus 2 tbsps. butter
6 rounds toast 2 tbsps. flour
6 poached eggs 1 tsp. salt
1/2 cup evaporated Pepper
milk diluted 1/2 cup grated
with cheese

Prepare a white sauce of the butter, flour, salt, pepper and diluted milk. Cook the asparagus in boiling salted water. Drain and add to white sauce. Place a poached egg in center of toast. Pour asparagus around the egg and sprinkle grated cheese over top of all. Serve at once. Serves six.

Her sincerity is unquestioned. Her judgment is KNOWN. Her ability in public ship has been tested for ten years by those who know her. Her record is KNOWN with a KNOWN record.

"A Progressive Woman for a Progressive County"

4 NEW POWER PROJECTS

This company is now actively engaged in four major power developments that will provide electric energy at low rates for our growing number of homes, industries and farms. These developments will particularly aid the farmers. Water stored during the Winter will be released during the Summer and Fall when most needed.

Through business initiative and the aid of customer ownership, the company has been able to finance and develop these projects effectively and efficiently.

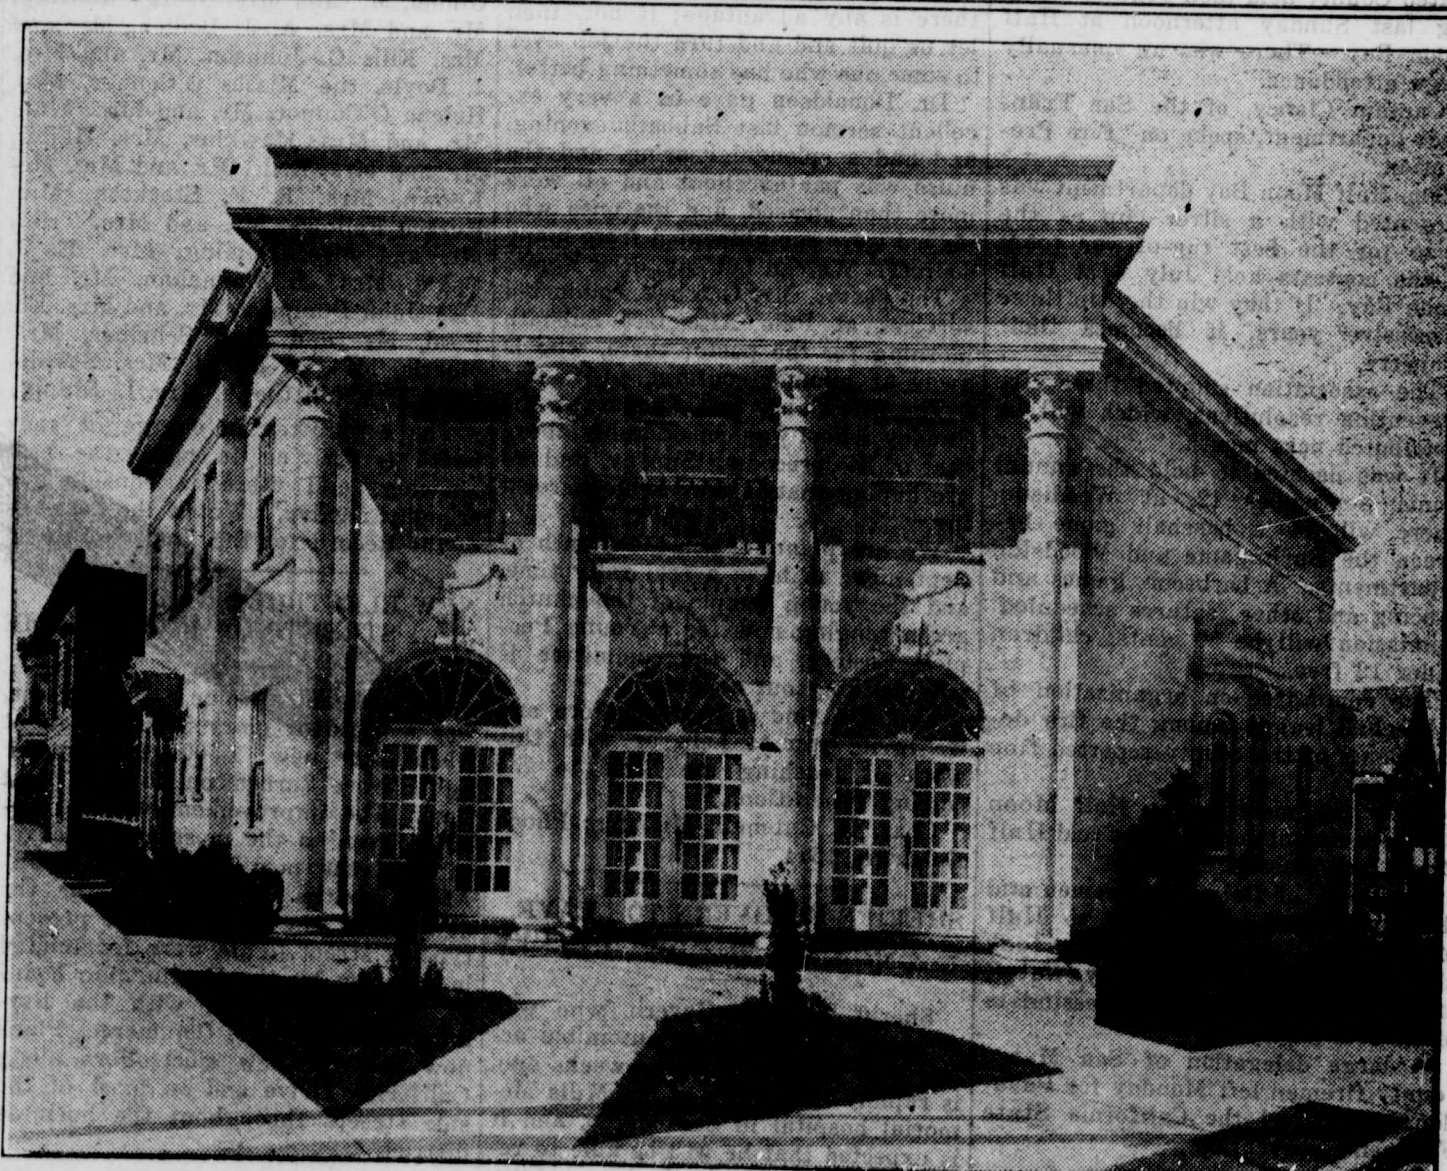

Rates are low in California—Service is a model for the rest of the United States.

Since 1913, the cost of living increased 65% while the cost of electricity decreased.

**GIVE ATTENTION
TO LUBRICATION****Good Way to Avoid Expensive Repair Bills.**

Due to the fact that motorists use their cars for longer trips in the summer time than in any other period of the year, oil dealers sound a warning that careful attention to lubrication requirements is essential if costly repair bills are to be avoided. Just because the car runs all right some motorists feel that it does not need attention.

Draining and Refilling.

If they could but see what is going on inside their gear cases when the transmission and differential are not properly cared for, say the oil men, they would soon realize that periodic draining and refilling of these vital spots is mighty important. The only warning given is when the car howls, but when a car howls it is too late for lubrication, the damage has been done.

Robert Worthington, president of a big company, in discussing this matter, said: "It took quite a period of time to impress motorists with the necessity of draining and refilling the crankcase at regular intervals. One of the examples used was to point out that four quarts of dirty oil plus one quart of fresh, clean oil always results in five quarts of dirty oil. This was an easy way to illustrate the importance of a complete change of oil."

No Pressure Gauge.

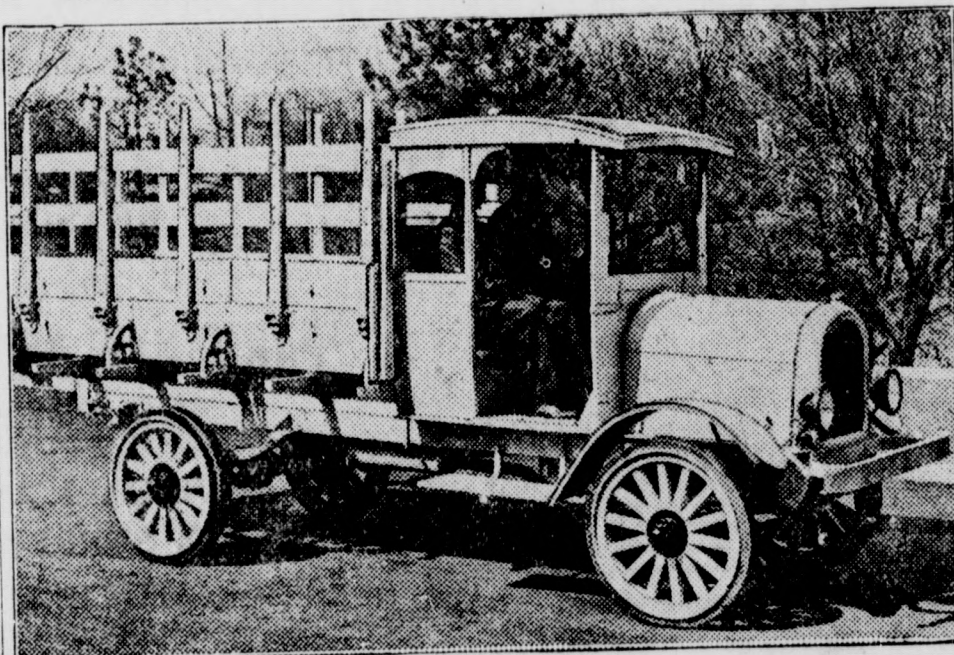

"The matter of transmission, differential and chassis lubrication, while just as important, is not as easy to illustrate, due to the fact that there is no pressure gauge at these points. The mere fact that many car manufacturers are building in lubrication systems for the chassis that can be operated by the simple pressure on a plunger should awaken motorists to the point where all lubrication requirements would be properly observed."

Important for Car Owner to Remember Tag Number

Some motorists experience considerable delay in receiving emergency service and cause a great deal of annoyance to repair men by failing to remember their tag numbers. Service stations report that they are prevented frequently from responding immediately to distress calls because car owners are unable to give the numbers when they summon the repair man. Repair men say they often go to the scene of the trouble, but are unable to identify the car they have been called to rescue because they have been given the wrong number or the owner does not know the number at all. Knowing the tag numbers also is a protection against theft.

Obey Traffic Signs

All traffic signs, including those used for the control of traffic at intersections should be obeyed promptly and to the letter. "Slow down" signs near schools should be observed as well as "Stop, Look and Listen" signs at railroad crossings.

IMPACTS OF TRUCK TIRES ARE TESTED

Trucks Have Proved Their Value in Transporting Freight.

Deductions drawn from data obtained in a series of tests of motor truck tire impacts on road surfaces, extending over two years and carried out in co-operation with the Society of Automotive Engineers, are given in a paper prepared recently by J. A. Buchanan, of the United States bureau of public roads.

These conclusions, as set forth in Mr. Buchanan's paper, are that the impact reactions, or force of the blow, increase as the weight supported by the tire is increased, but that the ratio of the reaction to the weight becomes less as the weight is increased; that the narrower the tread rubber of solid tires is, the less is the impact reaction, and that increasing the height of the tread rubber has a marked effect in reducing the impact reaction in both single and dual tire mounting; that dual tires cause greater impact forces than single tires of corresponding load capacity; that breaks in continuity of the tread surface cause heavy repeated road impacts, and that dual tires should be mounted with the tread design staggered.

Vertical Reactions Measured.

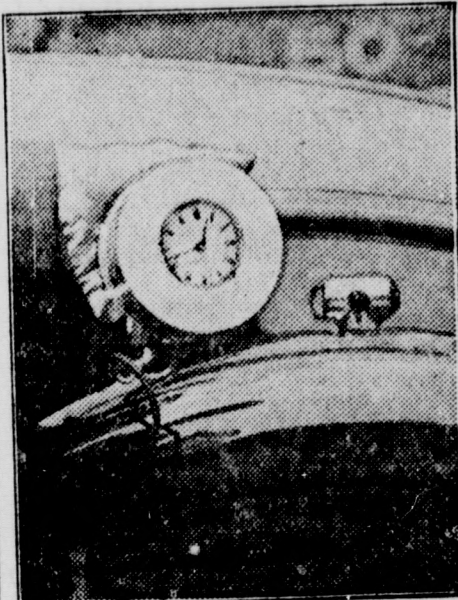

In the tests the vertical reactions from road obstructions were measured by a specially constructed instrument called an accelerometer mounted on the truck and designed to measure

Road Commandments

1. Thou shalt learn to recognize railroad crossings and approach them with extreme care.
2. Thou shalt look both ways and listen for trains.
3. Thou shalt be doubly alert if there are two or more tracks.
4. Thou shalt always use good judgment at railroad crossings that thy days may be long upon the land and the enjoyment of thy car continuous.
5. Thou shalt not kill the passengers within thy care.
6. Thou shalt keep thy brakes girded with effective brake lining.
7. Thou shalt not depend upon the driver of the car ahead.
8. Thou shalt, when in doubt, take the safe course always.
9. Thou shalt cross crossings cautiously.
10. Thou shalt keep thy car under control, so that it can always be stopped in the clear space ahead.—Wyoming Roads.

Clock Will Turn On and Off Parking Light

"Did I turn on my auto parking light?" With this clock your worries will come to an end for it can be adjusted to automatically turn on and off the light at any desired time. The

Handy Clock for Parking.

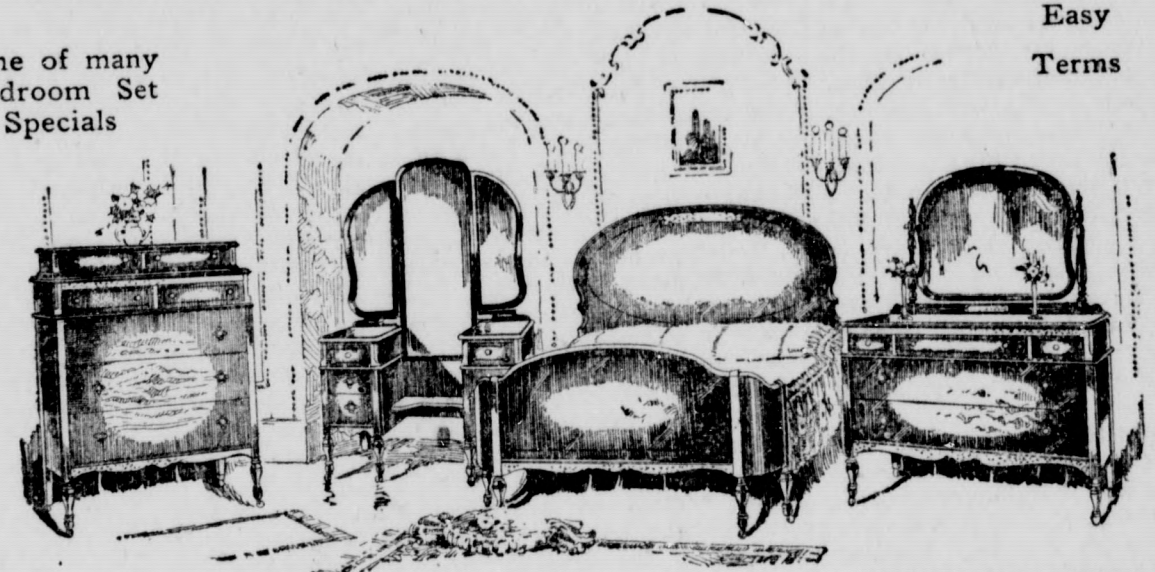

clock was invented by Ben C. Jones, of Washington, D. C. It is shown in the photograph, and can be installed on the dash or concealed under the seat of the car.

New York Supreme Court Rules Toy Cars Immune

Franklin Russell, sixteen years of age, of Beacon, N. Y., arrested for operating a toy automobile which the state alleged he should have registered and marked with license plates, had his laugh when Supreme Court Justice A. S. Tompkins held that the legislature did not order licenses for the toy cars of children. The miniature car has a wheel base of five feet and is twenty inches wide. At the back is attached a one-horsepower, gas-driven motor wheel by which the little car is propelled. It will accommodate two children.

HEROES IN WRANGLE

As an aftermath of the successful flight of the airship Norge over the North Pole, the public has been forced to witness a regrettable disputation over the assignment of credit for the notable feat.

Known as the Amundsen-Ellsworth-Nobile expedition, it was naturally supposed by most of those who followed the fortunes of the daring aeronauts that the three leaders were entitled to approximately equal shares in the credit to be given for their accomplishment.

The unusual attention paid to General Nobile, designer and captain of the Norge, upon his arrival in the United States, particularly by those of Italian birth or descent, appeared to annoy Lincoln Ellsworth, the young American who financed the expedition, with the result that he made public a statement to the effect that Nobile was merely employed at a salary to act as captain, and that to the Swedish navigator, Lieutenant Riiser-Larsen and his assistants, Horgan and Wisting, was due the principal credit for the successful navigation of the airship.

Then General Nobile countered with this: "It was I, Nobile, who designed the Norge; it was I, Nobile, who commanded it; it was I, Nobile, who was responsible for its success. Without me the flight would have been impossible. Lincoln Ellsworth was just a passenger. He was a nice passenger, but that was all."

As a matter of fact, it was Amundsen's polar experience, Ellsworth's enthusiasm and money, combined with Nobile's engineering skill, that made the feat possible.

As Admiral Schley said of the victory at Santiago, "there was glory enough for all."

The Wisconsin man who was fined for petting his wife in public should have known that such unconventional conduct would not be tolerated.

MUSIC PUPILS EXCEL

Students of music are 25 per cent more efficient in their school work than children who have never taken any music lessons, it is shown in an exhaustive analysis of school grades of Springfield, Missouri, high school pupils, made by the Cona Music Center, at Elkhart, Indiana. Music study was found not only to improve the grades, but also to rank high as a mental stimulant in other ways.

More than 20 per cent of the 3,478 students in the high and junior high schools of Springfield have studied music for six months or more. The general average of the grades of the Springfield high schools was found to be 82 per cent, while the average grades for those studying music was three points higher. Since 70 is the minimum grade and 82 the general average, there is a differential of only 12 points, and the actual superiority of the three points on the part of the music students in their general school work indicates an approximate increase in efficiency of 25 per cent.

Of the pupils studying music, by far the largest number take piano. Violin is the next favorite, and cornet, clarinet, saxophone and trombone follow in the order named.

The relation of wealth to music was brought out as an interesting sidelight of the analysis. The Reed junior high school, located in the poorer section of Springfield, had 3 per cent more pupils taking music than the Jarrett junior high which is located in the more wealthy section of the city.

NEW FORD AIRPLANES

On the occasion of a recent visit to President Coolidge at his summer camp, Edsel Ford discussed airplanes. In an interview given later, Mr. Ford elaborated upon his company's newest models, soon to be placed on the market.

It is to be a monoplane, with a wing spread of 68 feet, propelled by three Wright whirlwind 200 horsepower, air cooled, nine-cylinder motors. The three-motor plane affords great power in getting off the ground, also provides the maximum factor of safety. Should one motor become disabled in flight, the other two would be able to complete the journey; while in the improbable event that two should fail, the remaining motor would enable the airplane to choose a landing place within a radius of 10 miles from an altitude of 1,000 feet, with a proportionately wider radius from a greater height.

The first one hundred planes of this type will cost about \$37,000 each, and Mr. Ford believes that there will be a waiting market for these one hundred planes. He believes that mass produc-

tion will follow in due time at a lower cost.

Ford's aerial freight lines now run from Detroit to Chicago and Cleveland, and will shortly be extended. In a little more than a year 295,000 miles were covered in 3,354 hours, with a total of 1,644,000 pounds of freight carried. "We hope to encourage others to go into the air transport business," said Mr. Ford, "by showing them that it can be done, and by providing safe and sound ships at the lowest possible cost."

Probably no greater impetus could have been given to commercial aviation than the decision of the Ford interests to go into the manufacture and operation of airplanes on a large scale. Aside from the commercial aspect of the enterprise, it will afford an invaluable means of national defense, should the need for it unhappily arise.

TEACHING BY PICTURES

This is an age of pictures. In books, newspapers, magazines and on the screen the world's panorama is presented to us through the medium of pictures. But the use of pictures as an educational aid is yet in its infancy.

Much experimenting has already been done with a view to the employment of moving pictures in the schools, and considerable progress has been made in their actual introduction into the school room. Now comes the Eastman Kodak Company with the announcement of an ambitious program for the extension of visual education, which promises great things.

A large series of educational films are to be developed for use in the third, fourth, fifth and sixth grades of grammar schools and in junior high schools. These are to be made in cooperation with the National Educational Association and the Motion Picture Producers and Distributors of America, of which Will H. Hays, former postmaster general, is the president. School authorities of ten large cities, including New York, Chicago and Los Angeles, will assist in planning the series.

Coming at a time when curriculum problems are seriously engaging the attention of educators, this plan to introduce moving pictures into the schools on an extensive scale may revolutionize teaching methods. The innovation should be welcomed and encouraged by all who are interested in sound education.

A SENSIBLE COURT

In contrast with the tendency of many courts to thwart justice through setting aside convictions of criminals on trivial technical grounds, a decision of the Alabama Court of Appeals is worthy of commendatory notice.

The case of a defendant convicted of second degree murder was appealed on the ground that one of the jurors named J. Arnold Hale had answered to the name of A. Arnold Hale on the venire. As a matter of fact, the juror in question was commonly known simply as Arnold Hale, and there was no other person of that name in the county in which the case was tried. In affirming the decision of the trial court, the Court of Appeals said:

"Highly technical and capricious criticisms of the rulings of trial courts will not cause this court to reverse causes and grant new trials in criminal cases, where it does not appear that some substantial right of the defendant has been taken away from him."

Reversal of convictions on account of insignificant clerical errors and similar absurd technicalities have done much to weaken public respect for many appellate courts. As a distinguished jurist recently said:

"If some five hundred appellate judges in the various states would agree to put an end to technicality reverses, and would restore consideration of the subject of justice, the whole machinery of the criminal law would take on a new life."

ELECTRIC BEAUTY AIDS

Recently a physician stated that women were overlooking one of their greatest available aids to beauty by neglecting to make a wider use of electric appliances. At first thought this appeared to be a rather ambiguous statement, but he went on to explain that relief from drudgery would do more toward preserving the health and beauty of women than any other means which might be employed.

He pointed out that they might be spared much of the labor which breaks them down prematurely if they would avail themselves of the many labor-saving electrical devices which have been developed for household use.

Electrical washing machines, sewing machines, irons, vacuum cleaners, ranges and many other appliances designed to relieve housewives of drudgery were enumerated.

Then the statement was made that American women spend more money in a year for cosmetics and other artificial beauty aids than is spent for the labor-saving devices which would do so much toward preserving their natural beauty. Government records show that the women of the country spend more than \$750,000,000 a year for cosmetics and beautifiers. Of course, a great portion of this is spent by women who have little labor to perform, nevertheless the argument in favor of labor-saving equipment holds good.

So, when the doctor suggested electric appliances as aids to beauty, he had in mind something more than electric curling irons.

ONE LONG DISTANCE CALL CLOSES BIG LUMBER DEAL

A transaction which would have warranted the expense of a trip across the continent, had the time permitted, was concluded the other day by long distance telephone.

A prominent Seattle lumberman had a deal pending with a New York customer. The matter required immediate action. A day or more would have been required to exchange telegrams in the transaction, which involved thousands of dollars and the Seattle man was at a loss to determine what to do. While in this quandary he noticed the telephone on his desk. Picking up the receiver, he placed a call for his New York customer, and in less than four minutes of conversation an agreement was reached and negotiations were completed.

A novelist makes the hero say: "As I gaze upon your face, time stands still," and the heroine probably wondered whether he meant that her face would stop a clock."

Apparently no censorship exists at the Spavinaw, Okla., swimming pool, where a sign reads: "Baths, with suit, 35 cents; without suit, 25 cents."

Last year's peanut crop showed an increase of 11.8 per cent, which is about right to keep pace with the increase in peanut politicians.

As editor of the prison newspaper at Atlanta, former Congressman Langley is not worried over meeting the Saturday payroll.

A scientist declares that sleep is a form of intoxication. And woe to the married man who talked loosely while under the influence.

SUMMONS IN ACTION TO ESTABLISH TITLE

Action No. 12186

In the Superior Court of the State of California, in and for the County of San Mateo.

J. P. Bonds, Plaintiff, vs. All Persons claiming any interest in or lien upon the real property herein described, or any part thereof, Defendants.

The People of the State of California: To all persons claiming any interest in, or lien upon, the real property herein described or any part thereof, defendants, greeting:

You are hereby required to appear and answer the complaint of J. P. Bonds, plaintiff, filed with the Clerk of the above entitled Court and County, within three months after the first publication of this summons, and to set forth what interest, or lien, if any, you have in or upon that certain real property or any part thereof, situate in the County of San Mateo, State of California, particularly described as follows:

PARCEL ONE.

Lot 34 in Block 26, as designated on the Map entitled "Map No. 1 of the Lands of the Union Park Land Company," which Map was filed in the office of the Recorder of the County of San Mateo, State of California, on February 16, 1892, in Volume "D" of Maps at page 2, and a copy thereof entered in Volume 2 of Maps, at page 50.

PARCEL TWO.

Lot 26 in Block 26 as designated on the Map above referred to.

PARCEL THREE.

Lot 9 in Block 39 as designated on the Map above referred to.

And you are hereby notified that, unless you so appear and answer, the plaintiff will apply to the Court for the relief demanded in the complaint, to-wit: That it be adjudged that the plaintiff is the owner of said property in fee simple absolute; that his title to said property be established and quieted; that the Court ascertain and determine all estates, rights, titles, interests and claims in and to said property, and every part thereof, and whether the same consists of mortgages or liens of any description; that plaintiff recover his costs, herein and have such other and further relief as may be due him in the premises.

WITNESS my hand and the seal of this Court.

Dated July 27, 1926.
(SEAL.) ELIZABETH M. KNEESE, Clerk.

By G. R. Winter, Deputy Clerk.

W. H. Clay, Attorney for Plaintiff.

MEMORANDUM

The first publication of this summons was made in the Daly City Record newspaper on the 30th day of July, A. D. 1926.

The following persons are said to claim an interest in, or lien upon, said property adverse to plaintiff:

J. H. Dennis, Colma, California.

Daniel R. Carroll, San Francisco, California, and Mary Doyle, San Francisco, California, as the heirs and devisees of the Estate of Annie Carroll, deceased.

J. H. Rosseter, San Francisco, California, Joseph H. O'Brien, San Francisco, California, and John Hahn, Berkeley, California, as Trustees for the stockholders of the Union Coursing Park Association, a defunct corporation.

First publication July 30, 1926.

Last publication October 1, 1926.

Colma News Notes

By SYLVIA FISCHER

Ernest Carcelia is building a beautiful home on Mateo avenue.

Mrs. Benedetti, who was quite ill for several days of last week, is now quite well again.

Mr. and Mrs. Attilio Conserva and daughter Eleanor are spending their vacation in Hopland.

The Messrs. Cheregino, of San Francisco, were Colma visitors on Tuesday of this week.

Mrs. Justin Tassaro and son Robert, of San Francisco, visited at the Capari home one day of last week.

Mrs. John Clervi and Mrs. Clervi, of San Francisco, visited Mrs. John Degantoni on Wednesday of this week.

Mrs. Mitchell Farmer, of San Francisco, spent last Tuesday visiting her mother, Mrs. L. Botte of San Pedro avenue.

Mrs. J. Fernando and sons Felix and Albert, of San Francisco, are visiting Mr. and Mrs. T. Fernando, of San Bruno avenue.

Mr. and Mrs. T. Fernando, of San Bruno avenue, are the proud parents of a fine eleven pound boy, born last Monday morning.

The baby daughter of Mr. and Mrs. Joseph Delucchi was christened Eunice elucchi in Holy Angels church last Sunday by Father Schenone.

Mrs. Marie Cheregino, of San Francisco, visited her daughter, Mrs. John Merlo, recently.

Mr. and Mrs. J. H. Lloyd have had their home on Mateo avenue painted by Carl Schwarz.

Mrs. Jack Dennis writes from New Jersey that they are having thunder and lightning storms there.

Mr. and Mrs. F. Sargenti, of Oakland, visited at the Fernando home on Bruno avenue last Thursday.

Many local people attended the motorcycle hill climb at Hill 57, at South San Francisco, last Sunday.

Harry Deller left last Saturday for New York and Philadelphia. He will visit the Sesqui-Centennial in Philadelphia.

Miss Elsa Alger has returned to her home in San Francisco, after spending a week at the Haubrich home on Mission street.

Messrs. E. A. Feretti and John Bianchi have returned from Oregon and British Columbia, where they motored to spend their vacation.

Judge Thomas J. Lennon of the Fairmont Hotel and brother-in-law of Mrs. Ellis C. Johnson, passed away last Saturday in San Francisco.

The Colma postoffice has been entirely remodeled and refurnished in an up-to-date manner and makes a great improvement for the town.

Mr. and Mrs. Louis Merlo, of the Olcese apartments visited Mr. and Mrs. Aurelio Bertetta, of Geneva avenue, one evening of last week.

A party of local young people are planning to attend the Foresters' picnic to be held at Fairfax Park, in Marin county, on Sunday, August 22.

Mr. and Mrs. William Condon (Bernardine Lagomarsino) of Church street, San Francisco, are the proud parents of a fine baby girl, born last Friday.

Mr. and Mrs. Louis Sani and daughters Eleanor and Lillian Sani, of South San Francisco, visited Mr. and Mrs. Al Zanetti one evening of last week.

Mr. and Mrs. Al Zanetti and Mr. and Mrs. Louis Sani attended the hill climb at South San Francisco sponsored by the San Francisco Motorcycle Club last Sunday.

Don't forget that August 25 is the date of the big whistle party to be given for the benefit of Holy Angels church on San Pedro avenue. The affair will be held in the parish hall.

The Colma Athletic Club will give a dance in the Colma Auditorium on Saturday evening, August 21. Excellent dance music has been provided and a record crowd is expected to be present.

The Girls' Club of Colma will hold its first meeting of the fall term on Thursday evening, September 2. Applications for membership should be in the hands of the secretary, Miss Emilie Wilke, before August 30.

On Wednesday evening, August 25, a whistle party will be given in the parochial hall for the benefit of Holy Angels church. All members of the parish are asked to do their part to make this affair a success. There will be numerous excellent awards.

Mr. and Mrs. John Deglantoni and daughter Doris Jean, Mr. and Mrs. Louis Nava and sons Louis and Robert, Mr. and Mrs. Joseph Merlo, Misses Rose, Inez and Lorraine Merlo, and friends motored to Woodside last Sunday, where they spent the day.

A meeting of El Carmelo Parlor No. 181, Native Daughters of the Golden West was held in Masonic Hall, Daly City, last Wednesday evening, with President Annie Biggio presiding. It was decided that a whistle party will be held in Masonic Hall, Daly City, on Wednesday evening, September 15, under the direction of the officers of the parlor.

An Elsie McGinn meeting will be held Thursday afternoon, August 26, at 2:30 o'clock, in Jefferson Hall, Colma. Mrs. McGinn, who is a candidate for the assembly, will address the meeting. Ladies are earnestly invited to attend.

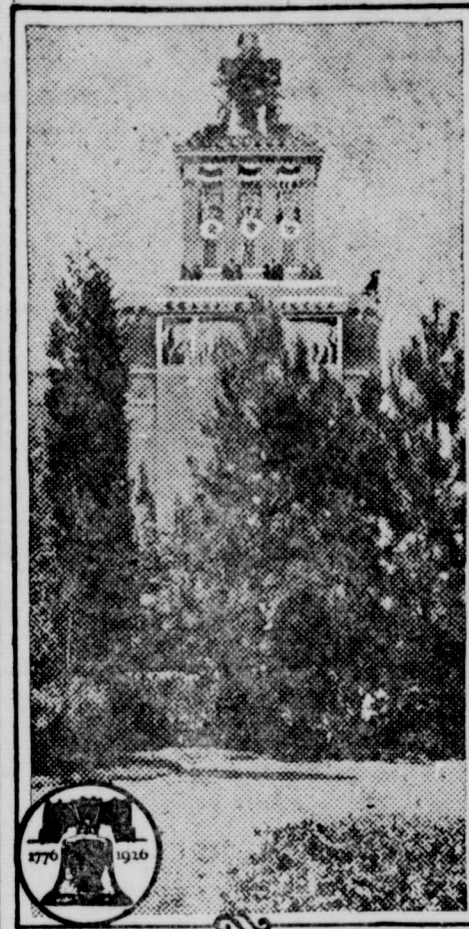

The ladies of the Old Mission Booth will sponsor a whistle party on Monday evening, August 23, at 8:30 o'clock, in St. Maximus social hall, Daly City.

Bones of a camel dug up in Montana, said to be more than a million years old, may be those of the original "dry."

It appears that when Uncle Sam lent money to the allies, he borrowed a lot of trouble.

Daly City Record for local news.

"A Thing of Beauty Is a Joy Forever"

This is one of the beauty spots of the Sesqui-Centennial International Exposition in Philadelphia. The exposition celebrates the 150th anniversary of the signing of the Declaration of Independence. The view shows the tower of one of the main exhibit buildings rearing its head up from among the gorgeous landscape which artists have built around the giant structures which house exhibits from forty-three nations of the world. The Exposition continues until December 1.

WORK

John Cavanagh, president of Crofut & Knapp Company, in an article in Forbes Magazine, says:

People frequently ask me what is the keystone of my success. I can sum it up in one word, a word which also carries my philosophy of life—Work.

Of course, after summing up, come the qualifications.

By work I do not mean plodding; I do not call that work. Anyone can be a jog trotter. But it is only by accident that a jog-trotter gets ahead.

Real work must be preceded by push—steam—go. Without enthusiasm and a desire to accomplish a task, one does not work as I understand the word.

Work, to me, is thorough, individual application to the task in hand, with a view toward making it a stepping-stone to higher tasks.

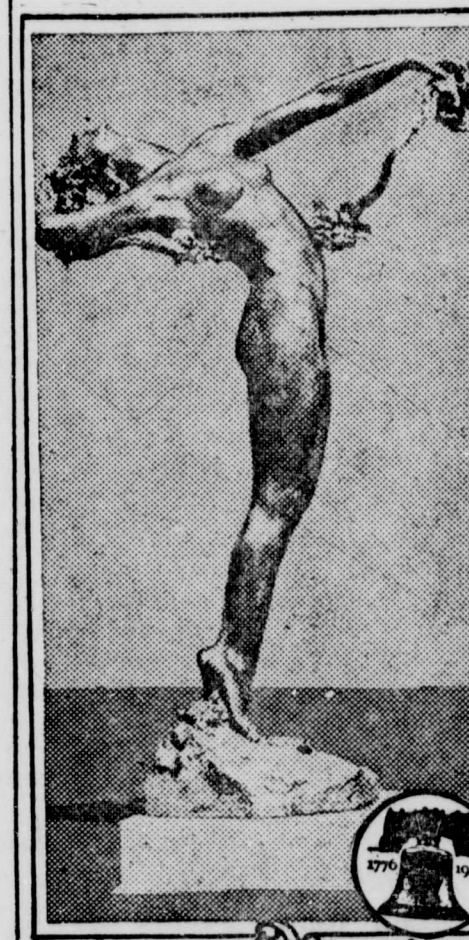

Work is a privilege, not a doom. And it is for the individual to choose the kind of work into which he can put the greatest amount of enthusiasm, for that is the kind of work he can do best.

Correct this sentence: "The police will certainly have the criminal in custody within a few hours."

Many who cry "Back to the Constitution," would detour around the Eighteenth amendment.

When the loop dangles before a murderer his lawyers look for a loophole.

"The Vine"

This magnificent bronze by Harriett Frishmuth is on display in the Palace of Fine Arts at the Sesqui-Centennial International Exposition in Philadelphia where the 150th anniversary of the signing of the Declaration of Independence is being celebrated. This is but one of the many gorgeous and beautiful things to be seen in the Fine Arts exhibit. Famous artists from all parts of the world have sent their paintings, etchings and sculptures to Philadelphia to be exhibited during the exposition, which continues until December 1.

Photographs seldom do us justice, being fortunately tempered with mercy.

DEER HUNTING

Deer hunting in San Mateo county is a sport largely in name only, but the fact that there are still a few bucks to be brought in seems to be due to one fact and one alone. To the Spring Valley Water Company, which has made its thirty-six miles of water shed a game preserve, credit is due for the prolongation of the existence of deer in this section.

The Spring Valley Water Company has issued a warning to hunters to refrain from hunting on their property, and are causing the arrest of trespassers.

Perhaps the time will come when sportsmen can see ahead far enough to stop hunting for a sufficient time to give nature a chance to catch up. Until that time, we must rely upon companies like the Spring Valley to preserve the wild life.

PRODUCTION AND WAGES

Every employer should want to see and contribute to good working conditions and proper wages. Proper wages have been defined not as "living" wages, but as "producing" wages.

The amount an employer can pay out in wages, depends entirely upon the amount labor produces. The foundation principle of wage payments is, that no employer can pay more for work than the total added value such work provides.

SUMMONS

No. 11968.

In the Superior Court of the State of California, in and for the County of San Mateo.

Action brought in the Superior Court of the State of California, in and for the County of San Mateo; and the complaint filed in said County of San Mateo in the office of the Clerk of said Superior Court.

WILHELM E. COOPER, Plaintiff, vs. MELAINE COOPER, Defendant.

The People of the State of California send Greetings to MELAINE COOPER, Defendant.

You are hereby required to appear in an action brought against you by the above named plaintiff in the Superior Court of the State of California, in and for the County of San Mateo, and answer the complaint filed therein within ten days (exclusive of the day of service) after the service on you of this summons, if served within said county, if served elsewhere within thirty days.

And you are hereby notified that if you fail to so appear and answer, the plaintiff will take judgment for any money or damages demanded in the complaint as arising upon contract, or will apply to the Court for any other relief demanded in the complaint.

Witness my hand and the Seal of the Superior Court of the State of California, in and for the County of San Mateo, this 13th day of May, A. D. 1926.

(SEAL) ELIZABETH M. KNEESE, Clerk. By C. R. Winter, Deputy Clerk. Frank J. Golden and Joseph M. Trusty, Hobart Building, San Francisco, Attorneys for Plaintiff. First publication August 6, 1926. Last publication October 8, 1926.

AS TO GASOLINE AND THE DEMOCRACY OF THE WEST

The Far West is the best place in the world to live in, to raise children in, to come and stay in, because it has more automobiles per thousand of population and consumes more gasoline per car than any other region of similar dimensions on the globe.

That's a real mouthful. Sounds like an old-time booster blurb, doesn't it?

Look at it this way: The possession of a car per family indicates a huge purchasing power in every stratum of the population. Gasoline consumption indicates that the families are using the bus. More families in the Far West have more money to spend for rubber rides, which means that they can afford to send their children to school for a longer time than anywhere else. Which in turn means broadened education, better citizens, a wider, deeper democracy. And school statistics confirm the deductions drawn from automobile ownership figures.

Sagebrush or seashore, mountain or valley, desert or dank forest, the Far West is a better place to live in because it has the democracy of the uncause of the inbN shrd shrd hrd crowded spaces—and wants to preserve that democracy through education.—September Sunset.

It's about time that General Andrews' men began padlocking the corn fields.

Otto Kahn says former feminine apparel was atrocious, and he approves what girls of today do not wear.

Amp's Advice to Autoists

"If you allow dirt to collect on top of your battery, you're court-trouble. Let us tell you why. The 5-Point Service he gives includes keeping the battery top clean and free from electrical leakage. Battery hold's charge better—lasts longer."

CALIFORNIA NEWS BRIEFS

PEACHES, CREAM TO BE CANNED AT LINCOLN SOON

Marysville.—W. S. Carpenter, in charge of the evaporated milk department now being added to the Lincoln cannery, announces that the plant will be ready for operation between October 15th and November 1st. Milk from 400 cows has been contracted for delivery to the cannery, and the herds from which it will be taken center around Marysville, some of them being at Gridley. Trucks will deliver it to the cannery daily. The milk from 400 cows will make approximately 100 cases of condensed milk per day. This will be the output of the plant for a while, but it is to be increased later, when additional machinery and equipment will be installed.

Eventually it is the plan to establish another plant at a point further up the valley.

This Lincoln plant will probably be the only peaches and cream cannery in the world. It is now canning peaches and will soon be canning milk. Next year the two operations will be under way simultaneously.

Los Angeles is exporting goods made in Southern California to all parts of the world. It is now the sixth city in exports. It has become known internationally as a manufacturing center, the advertising value of which is difficult to estimate. Its metropolitan area ranks seventh among the nation's manufacturing districts. During the past six months its industrial payrolls have produced goods on an annual value basis of more than \$1,300,000,000, a gain of \$25,000,000 compared to the same period in 1925.

Progress in the paving of the highway from El Portal to Yosemite valley has necessitated changes in the one-way control at El Portal, seventy miles from Merced, on the new all-year Merced-Yosemite road. The schedule as announced by the Merced office of the California State Automobile Association follows: Enter: 5 to 5:30 A. M., 12:05 to 1:15 P. M., 5:30 to 7:30 P. M., and balance of night on odd hours. Leave 6 to 11:15 A. M., from 8 P. M., and for balance of night on even hours. No official change on Sundays.

The University of California, as recipient of a \$1,150,000 endowment from an heir of the late Mark Hopkins, may be drawn into the litigation likely to arise from the petition to probate the alleged will of the multi-millionaire railroad builder and California pioneer. Hopkins died intestate in 1878. His widow married the late Edward F. Seales, who inherited her fortune when she died. Seales in his will gave \$1,150,000 to the university, a portion of which has already been paid to the institution.

Cruises with the U. S. Fleet, boat drill on Lake Merritt, free midshipman's uniforms, and text books are among the privileges available for new men students of the University of California who elect the course in Naval R. O. T. C., which is being inaugurated at the university under the direction of Commander C. W. Nimitz of the U. S. Navy. The Navy department has selected only six universities in the United States for these Naval R. O. T. C. units, the University of California being one.

Following the lead of a San Francisco bay district farmer who recently charged that "petting parties" are frequently responsible for grass and grain fires, Jim Murphy, Butte county orchardist, is out with a new denunciation of "flaming youth." Several acres of valuable orange trees belonging to him were destroyed when moonlight "neckers," he charges, parked their automobiles along the highway and carelessly dropped lighted cigarettes in dry grass at the roadside.

Riding in balloons and airplanes is comparatively safe when compared to touring in automobiles, according to figures prepared by L. E. Ross, chief statistician of the State Board of Health. Far more Californians meet death in machines every six weeks than were killed in the whole country in airplane and balloon accidents during the six-year period from 1920 to 1925 inclusive, Ross declares. Air fatalities during that period numbered 126.

According to word received at Livingston, the Livingston High School has been placed on the accredited list at the University of California. The school has been placed in class B of the accredited rating and upon the scholarship records of graduates from the school will depend whether the Livingston school is placed in the regular class A division of accredited high schools, which can not be done under the regulations before two years.

Dr. Ruby Cunningham, head physician for women of the University of California Infirmary has just returned from Europe where she visited medical clinics in France, Italy, Austria, Switzerland, Germany, Holland, Belgium, and Czechoslovakia. Dr. Cunningham made the party with 98 other physicians, in a ship chartered specially for the trip.

According to the census taken as of April 1st, 1926, for the new city directory for Hanford, the population of Hanford is 7,120. This includes 6,368 within the corporate limits and 752 in outside additions.

A total of 1,033,508 free text books were distributed by the state to elementary school children during the fiscal year which ended June 30, 1926, state educational authorities announced.

Mrs. Mary Jane Foster, 86, one of the few Californians who could trace her ancestry back to George Washington, died at Roseville a short time ago. Mrs. Foster was an early California settler.

Yuba county has paid the \$1,000 pledged to Nevada county as its share in the fund given the state highway commission to improve the easterly end of the Tahoe-Ukiah highway, along Harmony Ridge in Nevada county.

Several thousand acres of the richest farm lands in the state were completely inundated recently when a Bethel Island levee burst above Antioch, eighteen miles west of Stockton. Crop losses exceeding \$150,000 were reported.

Building airplanes is the latest industry in Redlands. Rex Hicks, owner of a garage, is now completing his first flying machine. Mr. Hicks has just brought two standard planes and has established an airport for commercial work.

Steps to organize a water users' association, composed of irrigation districts and companies taking water from the Sacramento river between Red Bluff and Knights Landing, were taken at a meeting held recently at Colusa.

An increase in circulation of 25,000 books for Merced county and 8,209 for the Merced branch was reported by the county librarian, in the annual report of the county free library for 1925-26. The total circulation this year is 176,118 books.

The Great Western Power Company is taking steps to have the bodies removed from the old Indian cemetery at Prattville, Plumas county. The raising of the dam will flood the present site and the Indians have requested that a new burying ground be provided.

Poisoning of dogs in Sacramento has become almost epidemic, according to the statement of H. J. Winters, chief field officer of the Sacramento Humane Society. During the past month, Winters reports nearly three score canine pets in Sacramento have thus been put to death.

Dr. William A. Morris, professor of English history of the University of California has been named chairman of the committee for California to raise part of the million dollar endowment fund of the American Historical Association. The fund is to be used in a comprehensive program of research in United States history.

Dr. Herbert Ingrain Priestley, professor of Mexican history of the University of California, has just returned from a trip to Mexico where he made a study of present-day conditions, including the present religious controversies between the Catholic church and the government, in preparation for an international conference at Chicago University.

Some people seem to get all the joy out of life, and from the view point of the small boy, Miss Alice Bahrs is one of them, for Miss Bahrs has for her pets twenty-eight pups and six or seven larger dogs. Her pups are supplying material for a scientific paper she is preparing on "Reflexes" for the University of California Physiology department.

Plans for diverting water from the Kern river for the irrigation of lands in the Richgrove and Delano district and for a fertile territory probably as far north as Poplar in Tulare county, a few miles to the west of Porterville, were discussed at a meeting of the chamber of commerce in Delano. Preliminary plans call for the formation of a district of 60,000 acres.

The question of whether or not nature is continuing the processes today by which the petroleum beds of the world were laid down in past eras may be answered in the near future as a result of experimental studies being conducted at the University of California Scripps Institution of Oceanography at La Jolla, under the direction of Dr. Trask and the Petroleum Institute of America.

Students entering the University of California with the intention of obtaining a teacher's certificate, should devote more thought to the subjects they specialize in, because at the present time there are more teachers than jobs for some subjects and not enough teachers to fill the demand in others, according to Mrs. M. L. Cheney, appointed secretary for teachers of the University of California.

County Assessor Threlfall of Stanislaus county, has made public the new assessments on Oakdale property, showing a big increase, although the bulk of it is on operative property, the taxes on which are paid to the state by the corporations. For Oakdale city, non-operative, the total is \$903,585, as against \$890,865 a year ago. The increase is on improvements, being \$420,135 this year as against \$406,100 a year ago.

American exporters and manufacturers are finding that the Czechoslovak market has become one of their important buyers, according to Dr. Boris Morkovin, of Charles University, Czechoslovakia, who is now lecturing the University of California summer session.

Spending \$20,000 on the installation of a dryer, and planning the expenditure of \$40,000 on a mill, the Consolidated Clay Company of San Francisco is taking a long stride toward the development on a large scale of vast clay deposits, twenty-five miles

RADIO

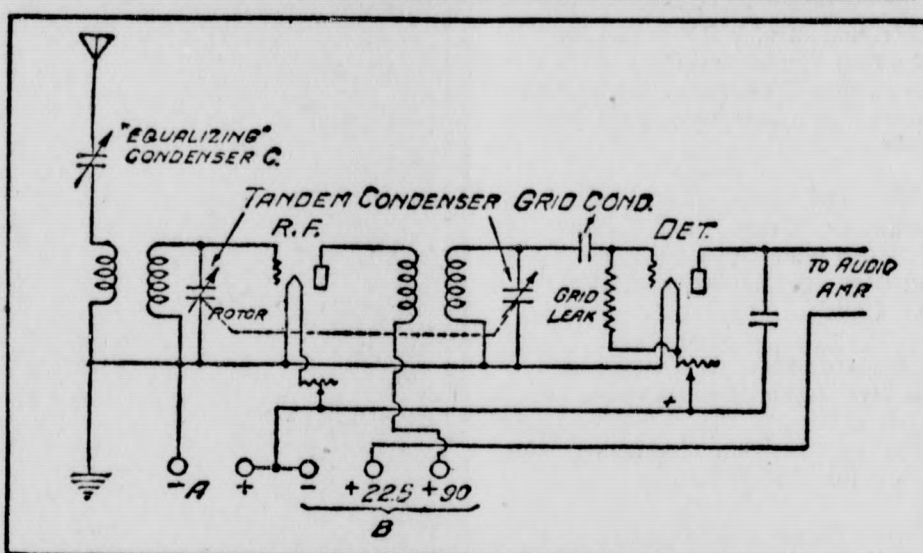

Diagram Showing Tandem Tuning Scheme.

By ZEH BOUCK

In the New York Herald-Tribune. It is the purpose of this article to consider the new ideas involved in tuning several radio-frequency circuits simultaneously by means of two or more condensers mounted on a single shaft.

The "problems" of tandem tuning are really nothing more than the problems of scientific set design slightly emphasized. In some respects they are mechanical rather than electrical, and in all cases are modified, with other problems, in individual receiver design. There are, however, some general points which should receive primary consideration before the specific details are tackled.

There is really only one fundamental "secret" to successful tandem tuning. This is the matching of inductive and capacitive values in the individual tuning circuits, which considers the inductance and capacity introduced by leads and wiring. It is the problem of the designer so to arrange his parts and their interconnections that the parasitic capacities and inductances are either negligible or are the same in each stage of radio-frequency amplification.

This accomplished there remain only the matching of the deliberate inductances (the tuning coils) and the capacities of the tuning condensers. The latter is taken care of in the case of any reliable condenser, such as the Amco "Siamese," which the writer used in his experiments.

It is the designer's job to match the inductors.

"Vernier" capacitances and inductors, of any type whatever, can be used to balance stray capacities and inductive values as well as poorly matched inductors. However, no vernier can efficiently compensate the capacitive discrepancies in some types of condensers. Compensation on one wave length is immediately upset upon tuning to another frequency.

Coils Recommended.

Coils characterized by a relatively low L to C ratio are recommended for use in tandem circuits, contrary to general practice. In other words space-wound coils and similar tricks designed to reduce the capacity of the windings, are not recommended in tandem tuning circuits. The use of higher capacity coils lowers the proportion of tube and stray capacity to total circuit minimum capacity, thus reducing whatever effect tube changing may have upon tuning.

Tandem tuning, needless to say, can be adapted to practically any tuning

system. A fundamental circuit accompanies these notes.

Attention is particularly directed to the input or antenna coupling circuit. The proximity of the antenna circuit, in almost every case, will throw the tuning of the first condenser out of alignment unless this condition is especially considered and properly compensated. There are two immediately possible ways of doing this. The first is to employ the usual aperiodic primary with very loose coupling, or variable coupling correctly compensated by the King Equamatic system. The second, and at present preferable arrangement, is the use of the antenna tuning condenser C. A certain optimum input (across primary) capacity should be decided upon by the designer—say 25 or thirty micromicrofarads. The average antenna capacity will vary anywhere between this value and perhaps 200 "micromikes." To reduce it to the desired across-coil capacity, the series condenser of about 50 mfd. is introduced as suggested. The condenser is varied for individual antennas, and left set when the correct value is discovered. It is recommended that this condenser be mounted within the cabinet, to discourage the itching fingers of the average fan.

Antenna Compensation.

If two stages of tuned radio-frequency amplification are employed previous to the detector tube, with one single and one tandem condenser, it is advisable to shunt the single condenser across the first secondary. This will eliminate the antenna compensation problem. (Antenna compensation, however, is still desirable if only to maintain dial alignment.)

Almost any efficient system of stabilizing the r. f. stages is recommended for use with tandem tuning circuits. The addition of the stabilizing arrangement presents no extraordinary difficulties.

All grid returns, in virtue of the common grounded rotor, are brought down to the negative side of the "A" battery. This fact slightly modifies the detector circuit. Detecting efficiency postulates a positive grid potential. To secure this, instead of shunting the grid condenser with the leak, as is usually done when the grid return is brought down to the plus filament terminal, the resistor is connected between the grid and filament (plus of course) direct.

Tandem tuning presents no real difficulties and demands only the intelligent application that must go into the design and building of any receiver satisfactory to the discriminating enthusiast.

Messages May Travel Over Separate Paths

Radio messages frequently travel from a broadcasting station to a receiving set over two entirely separate paths. Scientists of the General Electric company, according to Dr. E. E. Free's press bulletin, the Week's Science (New York), report the discovery of further facts confirming this idea.

"One path is along the surface of the ground. The other path is through the high levels of the air fifty or a hundred miles above the earth. When both these waves arrive at the same receiving set they sometimes interfere. This may cause what radio fans call 'fading,' or some other disturbance of reception. Much progress has been made recently in understanding just how radio waves move through the ether from place to place. As these facts become better known and are applied, we may expect further improvement in the quality of the radio waves sent out."

Part Played by Tubes on Your Crystal Set

Crystal sets without tubes are for local stations. One-tube sets will reach out almost as well as multi-tube sets if a good aerial is installed. Tubes added after the detector add little if any to the distance received, but do add greatly to the volume. Tubes before the detector mean sensitivity and permit only a small aerial to get the same distance. A loop is not used without radio-frequency amplification.

Simplifying Radio

Fifty feet of wire of little more than pencil thickness, hung vertically from the cross-arm of a wooden pole 70 feet high, has been flashing radio programs from 2XAF, Schenectady, N. Y., to practically every corner of the habitable globe.

Wave Length Range and How to Keep in Tune

Two simple principles applied to the average receiving set will enable the operator to keep in tune with all waves from 200 to 600 meters. If a coil of wire is placed in series with the antenna, it has virtually the same effect as increasing the wave of the antenna, thereby making it possible to pick up higher wave lengths. The larger the coil, the greater will be the increase in wave length. If a variable condenser is placed in series with the antenna or ground wire, the wave length range of the set is reduced. The smaller the capacity of the condenser, the greater will be the cut in wave length. To place a coil in series with the antenna, connect the lead-in wire to one end of the coil and run a wire from the other terminal of the coil to the antenna binding post on the set. A series condenser is connected the same way.

Length of Aerial to Get Desired Results

Use a short aerial for selectivity, and a long outdoor aerial for volume and distance. A combination of the two can easily be arranged by installing a single-pole double-throw switch. Run a length of bell wire through one or two rooms or around the molding in one room for the indoor aerial, the end of which is attached to one of the switch posts. The other post is attached to the long aerial coming in from the outside. The center contact goes to the aerial post on the set.

Loop Aerials

From the experience of radio engineers throughout the country it has been found that the average loop aerial is about 5 per cent as efficient as the average outdoor aerial. Indoor aerials are from 10 to 15 per cent as

DADDY'S EVENING FAIRY TALE

by Mary Graham Bonner

A DEER ADVENTURE

"Dear Mother Rib-Faced Deer," said Robby Rib-Faced Deer, "please tell me a story."

"What will I tell you about, my little beauty?" said Mother Rib-Faced Deer.

"Oh, tell me a story of the days when you lived in India," said Robby Rib-Faced Deer.

"I have heard how we got our name, because our little wee antlers come out from bones covered with skin, and we have these funny-looking bones also on either side of our nose which give us the name of rib-faced deer."

"And, too, I know we are also called the Muntjac deer."

"Well," said Mother Rib-Faced Deer, "I will tell you a story of one time in India."

"My home was in the dark forest, where lived the tigers and the leop-

The Muntjac Deer.

ards, as well as other deer families, but we were the cleverest of the lot.

"Ah, yes, we used to bark with delight (for we make sounds very much like barking, as you know, for you can make them) as we ran through the forests."

"But one day a terrible leopard thought he would catch me, and he went for me!"

"Oh, what a time I had! I ran so quickly that even he with all his quickness could not catch up with me, and I ducked my head as I ran through the thick underbrush, so that he could not see me half the time."

"And then, when I was safe from him, I made sure of not being seen by hiding back of an enormous log."

"That was often a trick of mine—hiding behind logs."

"But, oh, I was a proud and happy rib-faced deer that time when I escaped from the leopard who wanted to catch me!"

"But now my days of danger are over, and all I think of is my happy home in the zoo and the beautiful children I have here."

"And Robbie drew close to his beautiful little fawn-colored mother and said:

"But oh, I love the stories of the dangerous adventures—with the safe endings!"

Each in His Own Way

(By ALICE CROWELL HOFFMAN.) Each bird sings its "lay me down" When roses tint the sky. Each cricket chirps its evening prayer When stars shine out on high.

The bees all seem to think it best To buzz their evening prayer; The bull-frogs croak their thankfulness For God's great loving care.

And little folks by snowy beds Kneel down at close of day, While in a hushed and reverent voice Their evening prayers say.

And God, our Father, understands His creatures one and all, Although in different languages Upon His name they call.

Ice Cream Was Lacking

Don was invited to a party, and he had visions of heaping dishes of ice cream being passed to the guests, but when it came time to eat the hostess served a little hot luncheon with sugar cookies as dessert.

When it came time to go she said to Don, "Well, Don, I hope you have enjoyed the party."

"Yes," he admitted, "I did after I used myself to doing without any ice cream."

Drink All Over Him

Aunt Alma took her little niece and nephew out for a stroll in the park. As they were walking slowly along the bank of the stream, Ernest playfully threw some stones in the water. Aunt Alma cautioned him about getting too near the edge, for fear he might fall in. Anna, hearing the precaution, piped up and said, "Yes, and if he does fall in, he get a drink all over himself."

No Dust for Babies

Little Hazel had been told that babies were made from the dust of the earth. One day when the rain was falling in torrents she stood gazing sadly out of the window. "Why, Hazel, what makes you look so sad?" asked her mother.

"Cause," she replied, "I've been wanting a little brother to play with, and now there won't be any dust left to make one."

When Candle Is Angry

When is a candle angry?

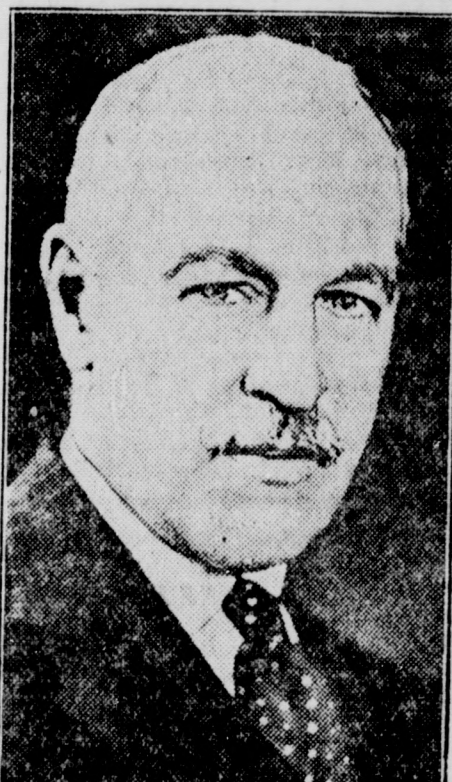

The AMERICAN LEGION

(Copy for This Department Supplied by American Legion News Service.)

TO GET TIME TO GO TO FRANCE IN 1932

A recent announcement by Gen. W. Atterbury, president of the Pennsylvania railroad, that employees of the railroad who are former servicemen may have four weeks off in September, 1927, to go to France with the American Legion and that the need not forego their 1926 vacation has been followed by a nation-wide movement of employers to take similar action.

Time off for Legionnaires to make the trip has been endorsed by the Chamber of Commerce of the United States, the Commonwealth Ediso

Gen. W. W. Atterbury.

company, the United Mine Workers of America, the American Federation of Labor, the International Typographical union, and scores of other employers and employees' associations and unions.

The Couzens bill permitting former service men in government employ to have 60 days off for the trip has been signed by President Coolidge. Another act made it necessary, however, that the employees forego their 1926 vacations in order to get the 60 days.

Essay Contest Date Is Extended to November 15

The date for closing the national "Back-to-France Essay Contest" of the France convention committee of the American Legion, has been extended to November 15 instead of September 15, due to urgent requests from the field.

Several hundred essays have been received from every part of the United States. The subject is "Why I Want to Go to France with the American Legion in 1927." Three cash prizes have been donated by the steamship companies whose 24 ocean liners will carry the 30,000 Legionnaires to France. The first prize is \$350; the second, \$150, and the third, \$100.

Those eligible to compete are members of the American Legion and the Legion auxiliary. Three judges of national prominence will choose the winners. They are William Allen White, Richard Henry Little and Frederick Palmer.

The essays must give the name of the writer as well as the post or unit of which the writer is a member. Each essay is limited to 400 words. They should be addressed to the National Convention Committee, American Legion, Indianapolis, Ind.

Insurance Companies Offer Trips to France

Several insurance companies are offering free trips to France with the American Legion in 1927 to their agents who are eligible to make the pilgrimage if a certain amount of business is written by them.

One company offers three grades of accommodations besides an additional \$100 for spending money. The first prize, including the best accommodations, railroad fare to and from the port of sailing and the \$100, requires that \$400,000 worth of business be written between July 1, 1926, and July 31, 1927. The agent who writes \$200,000 will receive railroad fare, the \$100 and the minimum accommodations, while \$300,000 business written will provide for the medium accommodations, railroad fare and the \$100 spending money.

Suspicious

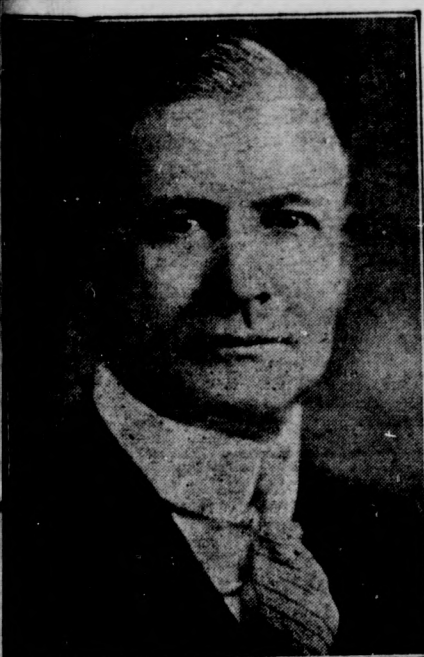

"Hello, sheik!" hailed the flapper. "Take me for a nice long ride in your new car?"

"Got your walking shoes?" asked the sheik suspiciously.

"No." "Got a pair of roller skates with you?" "No." "Carry a six gun?" "No."

"Well, then, climb aboard, but I'll bet there's a catch in it somewhere."

HARRY L. PARKMAN

CANDIDATE FOR
ASSEMBLYMAN
FORTY-SECOND DISTRICT
SAN MATEO COUNTY

Primary Election, August 31, 1926

RE-ELECT

Dr. Wm. A. Brooke

County Coroner and
Public Administrator

Twelve Years' Efficient Service

The Shields for Auditor Club have asked the following questions:

What is a County Auditor?

The officer who is responsible for the finances of the County.

What are the duties of this officer?

He authorizes the Treasurer of the County to pay all just claims upon the treasury of the County.
He handles the redemptions of property that is sold for delinquent taxes, an average of one thousand a year.
He makes up the tax rolls before they go to the Tax Collector and charges him with the collection of the Taxes.

Who is the Auditor of San Mateo County?

J. J. SHIELDS.

When does his term expire?

On January 3rd, 1927, at noon.

How long has he been County Auditor?

Twelve years at the close of this year.

Does he seek re-election?

Yes.

What has he done to merit re-election?

He has given entire satisfaction in the conduct of his office, as has been attested by the laudatory report of the Grand Jury year after year. His recommendations to the Board of Supervisors in his budget have always been received and favorably commented upon by the Board. Universal satisfaction has been given in the matter of redemptions (about 1,000 a year.)

Do you believe in retaining in office an efficient and experienced public official? Let your answer be Yes, by voting at the election on August 31st, next for

FIRE PREVENTION IS REAL PUBLIC SERVICE

"The public has no conception of the great service rendered by the National Board of Fire Underwriters and its related and subsidiary organizations, including the Board of Fire Underwriters of the Pacific, and absolutely at their own expense," says J. B. Levison, president, Fireman's Fund Insurance Company.

A recent report of the National Board shows that during the past year surveys describing the efficiency of water systems and fire departments, and the fire resistant qualities of buildings, have been made of Baltimore, Boston, Cleveland, St. Paul and Atlanta; and on the Pacific Coast, of Seattle, Salt Lake, Oakland and Berkeley. Reports have been made on 375 cities to date.

During the same period, engineers from the Board of Fire Underwriters of the Pacific completed surveys of seventy-nine cities and towns. In forty-eight of these the fire insurance rates were reduced, based on compliance with the required standards. In seventeen cases the rates were increased for non-compliance, and in fourteen no change was made.

New waterworks, accompanied in many instances by improvements to distribution systems, have been completed or are under way in Buffalo, Washington, Baltimore, Tampa, St. Petersburg, Kansas City, Houston, Dallas, Seattle, Tacoma, Bellingham, and in various cities on the east side of San Francisco bay in California.

A complete new fire alarm system has been put into service in Los Angeles and Stockton, and Kansas City, Missouri, and a new fire alarm central stations and equipment have been installed in various Eastern, Southern and Pacific Coast cities. National Board engineers have been consulted in all of these improvements.

City officials continue to depend on the National Board of Fire Underwriters for acceptance tests of automobile pumping engines. It has been active in the campaign to promote standardization of fire hose couplings. About 1,700 cities and towns have been standardized and everything indicates that in a comparatively short time this practice will be universal. The board is actively co-operating with the Chamber of Commerce of the United States in the development of the inter-chamber fire waste movement, which is now functioning in 446 of our leading cities.

Work of this character is of such great public benefit that its value need not be enlarged upon.

HARRY L. PARKMAN, CANDIDATE FOR ASSEMBLY, FAVORS GOOD SCHOOLS

"San Mateo county has a wonderful school system, and we must take precautions to see that our schools keep their present rate of progress," says Harry L. Parkman, candidate for the assembly from this county.

"The state plays a very important part in the provision of good schools, and San Mateo county needs an active, leading representative to care for its interests.

"If elected, I will certainly support any move to give the state better schools, and I will see to it that our county takes the lead in any such movement.

"With the opening of school, we are again impressed with the fine educational plants with which the county is equipped. Every voter should make it his aim to see that this county's school system keeps pace with its growth in other respects, both in equipment and school faculties," he declared.

Parkman's campaign for office is being well received throughout the county. As the day for election draws near, more and more voters realize that Harry L. Parkman, a successful business man, is the man for the job. His interests are sufficiently broad to represent the voters of the county, and his experience will enable him to perform the duties of the office efficiently. —Adv.

FOR TREASURER

J. J. HAHIR

VETERANS ARE RETURNING LOANS

California veterans granted state loans to aid them in purchasing farms and homes have returned a total of \$2,075,420 to date in monthly principal and interest payments, State Treasurer Charles G. Johnson announced last Monday in a report on financial transactions of the State Veterans' Welfare Board.

Under the semi-annual interest settlement just concluded, reported Treasurer Johnson, \$213,195 was paid into the state treasury by George M. Stout, secretary of the veterans board. This increased the amount paid in interest thus far to \$561,743.33.

Bond redemption payments made to date total \$419,000, according to the treasurer, and \$883,390 will be set aside to meet bond and interest charges during 1927.

Treasurer Johnson's report urged continuance of the farm and home purchase program, declaring that it is assisting the state's former service men to adjust themselves to civil life and is being administered without cost to the taxpayers.

"The new \$20,000,000 bond issue to finance the farm and home purchase program, which will appear on the November ballot, is entitled to hearty support by the voters, said the treasurer.

"This bond issue should not be construed as a state debt. It merely constitutes an extension of state credit. The money loaned the veterans will be repaid with interest."

"The admirable record made by California veterans to date in paying for their property is sufficient indication as to their reliability. More than ten million dollars has been invested in home and farm property under the act, and approximately 2,200 men have been aided. Approval of the new bond issue will insure completion of this important work."

UNITED STATES LEADS IN TELEPHONE PROGRESS

"The fiftieth anniversary of the invention of the telephone finds the United States still undisputed leader of the world's telephone progress," announces J. F. Adams, manager of the Pacific Telephone and Telegraph Company at Burlingame. "We have in this country 62 per cent of all the telephones in the world, or one telephone to every seven people, with ten times as many telephones in proportion to population as the rest of the world and with 191 telephone conversations per person in a single year, the United States maintains her telephone leadership which began one-half a century ago when Alexander Graham Bell made his great invention in a Boston garret."

New evidence of America's pre-eminence in the telephone field is afforded by a compilation of telephone statistics of the world which has just been published. The task of obtaining accurate information from remote countries has taken months, and the figures therefore reflect conditions as of January 1, 1925.

On that date there were 26,038,508 telephones in use throughout the world. Of these, 16,072,758, or over three-fifths, were in the United States. Europe had four times as many people as the United States, but less than one-half as many telephones. The 6,895,365 instruments in Europe constituted only 26 per cent of the world's total telephones. The remaining 12 per cent were scattered through all the other countries and continents outside of the United States and Europe. New York state alone had nearly as many telephones as Germany, and more than the whole of any other foreign country. Our American telephone systems also showed a greater net annual growth than the telephone systems of all the other countries in the world put together. The increase in number of telephones in the United States during 1924 was 839,407, while in all foreign countries combined it was only 750,263.

DYING SPEECH ROCKS SOVIET

In theory the Soviet government is the irreducible minimum of directness between the need and the execution of laws.

But Felix Dzerzhinsky, past chairman of the supreme economic council, recently excoriated the Communist party in a three hour speech, that brought on heart failure which caused his death. The failures of his pet theory so preyed upon him that he died trying to make the theory work. He said that he was horrified at the lack of efficiency and system, the red tape, the favoritism, the politics that honeycombed the whole structure. He attacked with fury the minority rule over the majority, one of the last passages of his impassioned address being a denunciation of Leon Trotsky.

"A Kiss for Cinderella," with Tom Moore and Betty Bronson as the stars, will be the feature picture at the New State Theatre next Thursday and Friday, August 26 and 27. This is a picture that has been considered most entertaining, and you should see it.

About the only ones who may be ignorant of the law and get away with it are the lawyers.

"The more the merrier" was not spoken of women's clothes.

Sometimes one needs a tonic for that run-down feeling; at other times he needs a stretcher.

The "huddle formation," now employed in football, probably originated on the parlor sofa.

NEWS NOTES OF PERSONAL INTEREST

By MARC WORST

John Fahey entered St. Ignatius College as a Sophomore last Monday.

The whist party given at the home of Mrs. S. A. Landini last Thursday was a decided success.

J. Reilly and daughters, Patricia and Evelyn, visited his mother, Mrs. M. Murphy, on Sunday.

Albert Bender and Clyde Bender, residents of Diagonal, Iowa, are visiting W. L. Gregory at 27 Vendome avenue.

Henrietta McKeown, who was operated on for appendicitis, returned from St. Luke's hospital last Monday. She is recovering rapidly.

Mrs. Jean O'Rourke and daughter, Beula, visited Walter's Springs, Napa county, where Winifred O'Rourke is spending her vacation.

The new lights have been installed in the library, and are a decided improvement. Mr. Sundermann is chairman of the light committee.

Crocker Chapter, Order of De Molay, will give an invitational dance this Friday night.

Mrs. L. Cook, city water clerk, is expected to return from her vacation next Monday.

W. G. Fuhr, who has been visiting at the home of Mr. and Mrs. S. A. Landini, left for Eureka last week.

Mrs. W. J. Hayes, president of the Second District P. T. A., dined with Mrs. S. A. Landini one day this week.

Harold and Eliot Purser, formerly of Daly City, and their cousin Vista Hagler, of Texas, visited in Daly City last Sunday.

A whist party and dance will be given by the St. Maximus booth at the Daly City Auditorium this Saturday evening, August 21, starting at 8:30 o'clock.

Don't forget to attend the whist next Monday evening, August 23, at the St. Maximus social hall. Beautiful awards have been collected for the event. This whist is for the benefit of the Old St. Maximus Booth.

The Daughters of Israel will hold a benefit whist Saturday, August 28, in the Eagles' Hall.

Mrs. R. Jacobowski, mother of Mrs. H. Warshawski, passed away Saturday at her home in San Francisco. A private funeral was held Monday.

Mr. and Mrs. F. H. Ray, former residents of San Francisco, have decided that Daly City is a good place to live, and have purchased the home at 14 Vendome avenue.

Owing to election day falling on their regular date, Company No. 3, Daly City Volunteer Fire Department, will hold their monthly whist party on Tuesday evening, August 24.

Mr. and Mrs. C. T. Worst went to Pescadero Saturday. They returned Sunday, bringing their son Marc with them. He had been staying at the Memorial Park for the past two weeks.

Mrs. J. Pearlman held a whist last Wednesday at her home, 259 Miriam street, for the benefit of the Mothers' Club of the Y. M. H. I. of San Francisco.

Thomas Jefferson, of the Jefferson Cleaning and Dyeing Works, has been confined to his bed for a week, suffering from a very bad cold, but late reports state that he is well on the road to recovery.

"The Million Dollar Handicap" will be the feature picture at the State Theatre this Saturday, August 21. The opening chapter of "Vanishing Millions" will also be presented, and there will be additional features.

A. J. Dalton, of the Dalton Realty Co., has just returned from a two weeks' vacation at Lake Tahoe and Grass Valley. He reports that fishing is very good in the lake, he having returned with a great catch of lake trout.

K. Barskey, of 132 Los Olivos avenue, had the misfortune to slip and fall on the Twenty-ninth street hill one day last week, sustaining painful bruises. The doctor is now treating him for blood poisoning, and he is recovering satisfactorily.

Fay Lanphier (Miss America) is in the movies now, and will appear in "The American Venus," which comes to the State Theatre next Wednesday, August 25. Eddie's Adevrshaw, that riot of fun, is also billed for Wednesday, which insures a crowded house.

The fourth Tuesday of this month the Senior girls will have their meeting and social at their club rooms adjoining St. Maximus church. Miss Jess is in charge of the social committee. All young women in the parish, eighteen or over, are invited to join the club.

The Daly City Volunteer Firemen's annual picnic will be held at Lovchen Gardens, Sunday, September 5. Admission will be 50 cents. The firemen are making extensive preparations for this event, and expect a large crowd to join in this annual celebration.

Aileen Pringle and Conway Tearle are featured in "The Mystic," which will be presented at the State Theatre next Sunday night, August 22. In addition "Strings of Steel" and some classic vaudeville acts will be presented, making a bill which should please the Sunday patrons of the State.

Several sales were made last week by the A. J. Dalton Realty Co. A five room bungalow on Westlake avenue was sold, and another on North Park avenue consisting of four rooms and breakfast nook. They also report the sale of three lots on Willits street between Vendome and Knowles avenue.

The whist party to be given by the members of the "Old Mission Booth" for the benefit of St. Maximus church will take place on Monday evening, August 23, in St. Maximus social hall, under the direction of Mrs. John Steele. An unusual array of valuable attractions will be given to those who make the high scores. Don't forget this date—Monday evening, August 23—at 9 o'clock.

Mrs. Francis English, who has a large circle of friends in Daly City and Colma, and who for many years was employed in a well known wholesale dry goods house in San Francisco, has opened up a ladies' and gent's furnishing store at 6274 Mission street. She reports that business has been exceedingly good since she opened the new place of business, and wishes to thank her many friends in the district for their kind patronage, and she declares that down town prices will always prevail in the Jefferson Shoppe.

Mr. and Mrs. Walter Fricke expect to move into their new home on the Crocker Terrace next week. They have made their home in the Richmond district for the past three years, but Mrs. Fricke always liked Daly City. The home is beautiful and of Spanish type. Mrs. Fricke selected the fixtures and supervised the interior decoration to suit her taste. There is 109 feet frontage of property adjoining their home which they intend to convert into a fully equipped playground for their young children. Mrs. Fricke is Mrs. H. O'Connor's oldest daughter.

BUILDING PERMITS

City Clerk B. C. Ross issued the following building permits this week: B. Young, 31 Willits street, four rooms and garage. Chas. D. McKee, 253 Winchester, four rooms and garage. Emil Peterson, 1155 Hanover, four rooms and garage. James Kennedy, 59 Vendome, alterations. Chas. Simoni, 231 Hillcrest, four rooms and garage. H. K. Dempsey, 278 San Diego, four rooms and garage. 682 San Diego, four rooms and garage. John Van Heusden, 432 Vista Grande, five rooms and garage; 444 Vista Grande, five rooms and garage.

P. T. A. ACTIVITIES

Mrs. Owen, president of the San Mateo Federation of Parent-Teachers' Association, will address the first Jefferson P. T. A. meeting next Monday. The newly elected officials will conduct the meeting.

At this meeting, the P. T. A. members will vote on the idea of serving hot lunches to the Jefferson high school students every day. If this motion carries, a different menu will be planned each day, at the smallest possible cost to the student.

All parents of students and anyone interested in P. T. A. work are invited to come to the meetings of this organization.

In November, the San Mateo Federation, which consists of nineteen organizations, will be the guests of the Jefferson P. T. A., and the object of this meeting will be to have an educational institute, which is in the order of a convention, educating members in P. T. A. work.

GOES OVER EMBANKMENT ON HALF MOON BAY ROAD

Another fatal accident occurred on the Half Moon Bay road yesterday, the automobile driven by Fred Grother of 1030 Post street, going over the embankment, falling a distance of 100 feet. Mr. Grother and his wife, Mrs. Lillian Grother, were killed, while Mrs. Joseph Levy, of 1689 Fulton street, sister of Mrs. Grother, and Frank Harvey, of Oakland, were injured. Passing motorists saw the Grother machine, a light sedan, in a crumpled heap at the bottom of a 100 foot bank. Investigating, they found the four persons in the wreck.

DALY CITY MAN INJURED WHEN AUTO OVERTURNS

When his automobile overturned at the corner of Oak street and Grant avenue, South San Francisco, Harry F. Shearer, of Daly City, was seriously injured. It is believed Shearer's car went off the road and upon hitting the soft dirt skidded and then turned over. He was found unconscious under the car and taken to the South San Francisco hospital. He is suffering from serious cuts and bruises and possible internal injuries. Shearer was employed by the Richfield Oil Company.

MOTOR BANDITS TAKE CASH FROM MERCHANT

Mario Cascina, a San Mateo merchant, was robbed of \$400 in cash when he was stopped by motor bandits just north of Mayfield late Saturday night. The men were in a Chrysler roadster and one of them, armed with a revolver, leaped to the road and ordered the San Mateo man to halt. Immediately following the robbery they sped away in their machine.

PLAN CELEBRATION FOR OPENING OF BAY BRIDGE

Planning a monster celebration in honor of the opening of the Dumbarton vehicle bridge over San Francisco bay, south of Redwood City, directors of the Redwood City Chamber of Commerce have appointed a committee to act with the officials of the bridge company. The date of opening the big span has not yet been determined.

Homestead Seeks Incorporation Petitions for incorporation of the Homestead district, south of San Mateo, as a separate municipality, following abandonment of proceedings for an election to annex the territory to San Mateo, were drawn yesterday. The petitions are to be presented to the San Mateo county supervisors at Redwood City on September 7, with a request that an election be called immediately to incorporate the Homestead district.

Six Injured in Auto Collision Six persons were injured, three perhaps fatally, in peninsula traffic accidents over Saturday and Sunday. All six were injured when a machine operated by R. W. Weiss crashed in a head-on collision with a car driven by R. Zeisz.

Deaths Due to Accident Accidental death was the verdict of a coroner's jury at South San Francisco yesterday, following an inquiry into the deaths of Max Lantz and Walter G. Haugner, killed when an auto truck toppled over a steep embankment near La Honda, crushing both men beneath the wreckage.

Lon Chaney is one of the most popular movie actors of the present time. Admirers of Chaney will have an opportunity of seeing him in one
